EXPERIENCE

CELESTIA NSSCE (Position : President)

As the leader of Celestia, our college's space club, I've conducted hands-on workshops on various space-related topics and technologies. My tenure included collaboration with ISO veterans, fostering a community engaged in space and tech activities. This role has honed my skills in teamwork and leadership.

NANOSAT DEV PROJECT (Position : Project Director)

As part of "Gagan Aerospace, incubated at our college, I significantly contributed to a nano satellite project. My involvement was crucial in selecting components, developing circuits, and simulating subsystems.
